Moving from 2006 to 2009 IECC: A Primer for Designers, Builders and Code Officials

Dennis Knight, PE, LEED AP

Founder + CEO, Whole Building Systems, Charleston, SC

23 May 2013

6:00 PM – 7:30 PM

Charleston County Main Library

68 Calhoun Street

Charleston SC 29401

Continuing Education

AIA: 1.5 LU/HSW

SC Bldg Codes Council: 1.5 HR

Certificates provided

FREE

On January 1, 2013, the 2009 International Energy Conservation Code (IECC) became a requirement in the State of South Carolina, replacing the 2006 version. This course will help architects, engineers and codes officials to help make the transition to the new code compliance. It will outline major differences between the 2009 IECC and the 2006 version. The course will also provide an introduction to ASHRAE 90.1- 2007, the reference standard cited by the IECC as an additional path to energy code compliance. The course will introduce best practices for design, review and inspection of building construction for IECC compliance.

Objectives

- Understand IECC structure and format.
- Discern major differences between 2009 and 2006 IECC.
- Identify relationship between IECC and ASHRAE 90.1.
- Appraise best practices for IECC compliance.
