Dennis Knight, PE, LEED AP • Founder + CEO, Whole Building Systems, Charleston SC

28 February 2013

6:00 PM – 7:30 PM

Charleston County Main Library
68 Calhoun Street
Charleston SC 29401

Continuing Education

AIA: 1.5 LU/HSW/SD

SC Building Council: 1.5 HRS

GBCI: Credit pending

Certificates by request

FREE

One year ago BEC-Charleston celebrated along with their partners, East Cooper Breakfast Rotary Club and East Cooper Habitat for Humanity, as the proud owner took occupancy of the Net Zero Energy House (NZEH). This event culminated 2 years of design, fund-raising, and construction—all intended to showcase the lessons learned over the years of BEC Charleston meetings. The rubber met the road in the construction of the NZEH. After a year, how has it performed? What are the take-away lessons from the NZEH? How can you apply these lessons to buildings that you design, build, inspect, and occupy?

Topics to be Covered:

- NZEH Design and Construction
- Performance Considerations for NZEH
- Measuring and Evaluating Performance for NZEH
